TOPGRAPH

TOPGRAPH is a trusted leader in delivering cutting-edge technology solutions, specializing in SAP S/4HANA migrations, cloud solutions, ERP data migrations, AI services, and more. With expertise in greenfield and brownfield implementations, we provide tailored services for seamless transitions and ongoing support. Our team empowers businesses to innovate, grow, and succeed with impactful, customized solutions that meet unique operational needs. Let's drive success together!

Company Overview

We deliver cutting-edge SAP S/4HANA implementations, migrations, AI services, ERP solutions, & more, providing tailored Digital services to drive innovation & Business Growth.

Our Expertise

SAP & ERP Solutions

We specialize in seamless SAP S/4HANA migrations, upgrades, and implementations, ensuring smooth ERP transitions with minimal disruption. Our SAP expertise spans Greenfield, Brownfield, and Bluefield projects, along with upgrades, enhancements, code remediation, and managed services. We also deliver tailored IFS Cloud and On-Premise solutions, covering data migrations, integrations, and enterprise-wide process optimization.Our IFS capabilities extend across finance, supply chain, HR, service, and field management, driving efficiency and business growth.With deep expertise across SAP and IFS landscapes, we provide end-to-end ERP transformation services that align with strategic business goals

AI & Innovations

We drive business transformation with AI and Generative AI solutions designed to enhance efficiency, reduce costs, and unlock innovation. Our expertise spans consulting, implementation, and training, empowering teams with next-gen AI tools for smarter workflows and decision-making.We deliver solutions ranging from intelligent assistants to IoT monitoring and cloud cost optimization, modernizing legacy systems and driving sustainability.Our Generative AI offerings include strategy advisory, tailored training programs, and end-to-end implementation with ongoing support

Cloud & Integration Services

We specialize in expert SAP S/4HANA Private Cloud migrations on GCP, AWS, and Azure, delivering flexibility, scalability, security, and optimized costs.Our migration services ensure enhanced data management, analytics, and compliance while modernizing business operations.We also implement the SEEBURGER Business Integration Suite (BIS) to enable seamless digital transformation across enterprises.With capabilities in MFT, API/EAI, B2B/EDI, IoT/Industry 4.0, and E-Invoicing, we ensure secure, real-time, and compliant business integration.Through deep ERP/SAP integration, we help organizations connect systems, streamline processes, and achieve end-to-end digital efficiency

Technology Support & Staffing

We provide top-tier staffing solutions to deliver highly skilled professionals tailored to your project and business needs.Our services cover temporary, permanent, project-based, and executive-level talent, ensuring the right expertise at the right time. We also offer comprehensive Application Management Services (AMS), including proactive monitoring, maintenance, and 24/7 support.By combining talent and technology services, we help businesses achieve efficiency, scalability, and long-term success
